

PLIB Work

2013

London Array Offshore Windfarm project (power cable)

The London Array Offshore Windfarm consists in 175 turbines, bringing th fields capacity to 630 MW total production.

The project has been developed by London Array Ltd, formed by E.ON, DONG Energy, La Caisse de dépôt et placement du Québec and Masdar. The project is located approximately 20 km (12 miles) from the Kent and Essex coasts in the outer Thames Estuary.

Visser & Smit Marine Contracting BV has subcontracted LOUIS DREYFUS TRAVOCEAN for the post-lay burial and survey of 54 infield cables in very shallow water condition.

LOUIS DREYFUS TRAVOCEAN mobilized and operated the ROVJET 605 VSW, an ROV jetting specially designed for trenching and inspection in very shallow water.

Schedule : March to September 2013
