

PLIB Work

2014

Wintershall project (umbilical)

Wintershall Noordzee B.V. as operator of a gas production field located in Dutch North Sea territorial waters, has installed a new well unit in this field. This remote unit is controlled and powered from the main operational platform by an umbilical, which installation was awarded to VBMS.

VBMS has subcontracted LOUIS DREYFUS TRAVOCEAN for the post-lay burial and survey of this 19km umbilical with the ROVJET 806 onboard thr Topaz Commander

Schedule : july 2014

Submarine Cable Installation
