

## Quality Policy

Our company's reputation has been built upon the quality of our projects set in an international context as well as being in a particularly challenging and sensitive marine environment.

To ensure that Louis Dreyfus TRAVOCEAN always stands for professionalism and excellence, we strive to :

### Satisfy our customers:

- by honouring our commitments in a reactive and flexible way
- by offering bold, responsible and innovative solutions
- by relying on our multi-skilled and experienced teams

### Satisfy our shareholders:

- by promoting synergies to develop a common strategy
- by contributing to make LOUIS DREYFUS ARMATEURS a major player in the renewable energy sector
- by diversifying our activities to perpetuate the company

### And for continuous improvement:

- by implementing a quality framework built on decades of experience and feedback
- by strengthening communication, training and best practices
- by supporting our teams throughout this change.

It is crucial to meet our customers' requirements in order to establish trustful partnerships based on transparent communication.

I request Louis Dreyfus TRAVOCEAN teams to join my commitment by implementing the provisions of our QHSE Management System, contributing to reach QHSE objectives, complying with applicable requirements and embracing a risk management approach for our activities.

I trust the Management team to strengthen our leadership to make this policy effective, to promote its content to the whole staff and to monitor its application on daily basis on the field.

**Olivier LE NAGARD**  
Directeur Général  
Octobre 2018
